The Expertises series is growing!

Groupama AM will soon publish issue number 8 in its Expertises series

The eighth issue of Groupama AM's *Expertises* series, on "The sovereign debt crisis in the eurozone", will soon be available.

These works, written by the economic studies team at Groupama AM, regularly address critical economic issues in understanding and assessing the markets.

Seven issues have been published since the launch of this series in 2003, which have contributed to the recognition of the quality of Groupama AM's fundamental research.
